

Manage your transition to the IFRS 16 standard with all-in-one lease accounting software solution Soft4Lessee

Soft4Lessee is a software solution for lease accounting under IFRS 16 (International)/ ASC 842 (N.America)/ AASB 16 (Australia & NZ) accounting standard.

Businesses with large portfolios of operating leases (properties, vehicles, equipment) will be impacted by the change in accounting standards, as the new standards require lessees to recognize assets and liabilities arising from operating leases **on the balance sheet**.

Soft4Lessee will help customer's business to:

- Plan the transition to the IFRS 16 - calculate the impact and choose one of the transition options.
- Stay compliant with the standard - upload new leases every month, let the system calculate values and download G/L transactions.

Main features

- Data Import / Export
- Lease Agreement Data Management
- Re-measurement
- Reports for IFR16 Presentation and Disclosures
- Accounting for Lease Liability
- Accounting for right of use asset
- Handling of Non-lease component
- Managing Lease Modifications
